TIMELESS VALUE IN CHANGING TIMES
MARITIME TRANSPORTATION AND PILOTAGE

2017 CMPA CONGRESS, FEB. 14-17
WELCOME

Dear friends and colleagues,

It is with pleasure that we welcome you to the 5th Congress of the Canadian Marine Pilots’ Association. The Congress is held in the heart of one of Canada’s most dynamic maritime regions, Montreal, a very appropriate location to share views, ideas and experiences on the maritime sector.

The Congress theme – Maritime Transportation and Pilotage: Timeless Value in Changing Times – is meant to provide for an exploration of the enduring value proposition of Canadian maritime transportation, including pilotage, in a world that changes ever more rapidly.

We are delighted to have so many respected panellists to share their views on topics important to maritime transportation and we hope that you will make the most of this opportunity to participate in the discussions, and to establish or renew connections with others in the maritime community.

On behalf of everyone involved, we thank you for contributing, by your presence, to the success of the event and wish you an enjoyable time at the conference.
